

# Elite 8

- Take 5 minutes to think of your favorite activities. What do you love to do? What do you deeply appreciate in life?  
RULE: no family or friends (or pets).
- Only proceed once you have filled out all the first round picks. Then proceed through the tournament until you eventually arrive at the championship “game.” What wins??

Think about the strengths you identified as your top 5. Are there connections to your favorite activities and your strengths? How could you apply your strengths to tasks you do not enjoy?
